way...

OUR PEOPLE - THE DRIVING FORCE OF OUR BUSINESS

At **EC Security**, we recognize the part of the ground level workforce in helping any school achieve optimum productivity.

That is why, valuing our people, is one of the most integral parts of our business. Our team is selected from individuals that hold true only the highest standards of personal integrity and pride.

Once selected, we invest the necessary resources in their personal and professional development before placement. In doing so we ensure clients receive only the best service and our staff obtain the highest possible level of job satisfaction.

This then leads to a workforce that adds value to both our clients as well as our business objectives.

Management's **commitment** to the workforce in recognition of their contribution to the effective and efficient progression of the business is expressed through real reward of internal achievers.

Continuous **in-house** and **external staff training** not only empowers staff but leads to potential promotions and achievement rewards.

It is our recognition of on-the-job initiative, commitment and talent that allows for the promotion of staff from grassroots level to technical sector specialist and from sector specialist into junior and then senior management.

GUARDING SERVICES

Guarding forms, the lifeblood of the Security Industry. It is our commitment to employing the right people and placing them with the right clients that sets us apart as a market leader.

We recognize the importance of establishing and maintaining lasting relationships. It is our dedication to minimizing frequent staff turnover, continued communication, constant re-evaluation of client needs and stringent service quality control, which guarantees a rapport between us and our client.

Our portfolio or **Guarding Services** include retail, industrial, commercial, corporate and diplomatic, residential and estate management with security officers qualified from Grade A to D.

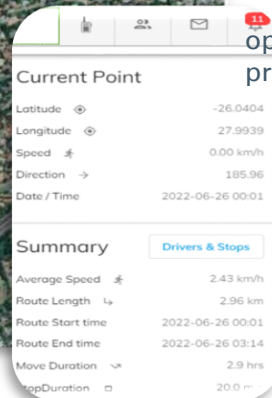

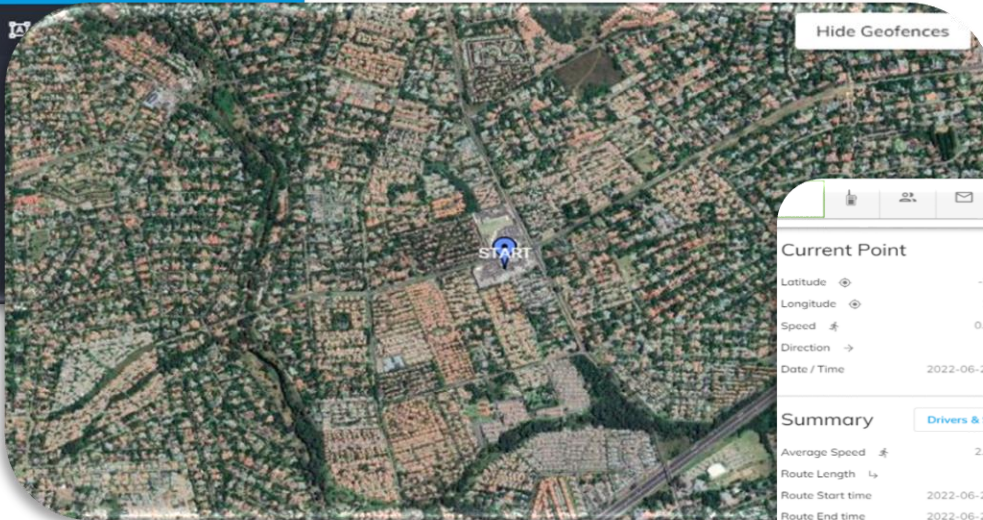

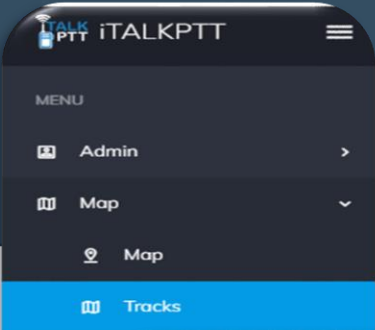

LIVE ACTIVITY REPORTING

EC Security uses an initiative-taking **Guard Management System** whereby activities such guard patrols are logged via a mobile device on the client's premises .

The system accomplishes a wide range of functions for security operations using desktop and mobile devices that helps Increase productivity, effectiveness, and communication across the organizations.

Functions include:

- Live Real Time Guarding Patrol Monitoring
 - Live incident Reporting
 - Emergency Panic
 - Can receive calls
- Geo-fencing of guard movement

CONTROL ROOM

LOCATION: 20 Saffraan Avenue, Weltevredenpark

EC Security boasts a cutting-edge control room, equipped with advanced technology and manned by a team of highly skilled and regularly trained operators. The control room is divided into two integral departments, namely, the alarm monitoring and dispatching department and the off-site camera monitoring department.

The alarm monitoring and dispatching department is responsible for promptly detecting any security breaches and promptly dispatching a response team to mitigate any potential threat to the client's property or personnel. The department is equipped with the latest surveillance technology that enables the operators to monitor the client's premises in real-time, detect any anomalies, and promptly dispatch the appropriate response team.

On the other hand, the off-site camera monitoring department uses state-of-the-art surveillance systems to monitor the client's property remotely. The department is staffed by a team of highly trained operators who are experts in remote monitoring and data analysis. They use sophisticated tools to detect and analyze any suspicious activity in real-time, enabling them to provide accurate and timely information to the response team, ensuring the prompt response to any security breach.

In conclusion, EC Security's control room is a highly sophisticated and effective security management center, ensuring that clients' properties and personnel are secure and protected at all times. The combination of advanced technology, highly trained operators, and robust security protocols make EC Security the preferred choice for clients looking for unparalleled security services.

TECHNICAL DIVISION

The **Technical Division** of EC Security operates from a technically superior, state-of-the-art control room that is manned 24 hours a day.

From here a variety of highly technical services and actions are performed by trained staff.

Technical Division activities and systems include amongst others:

- Alarm Systems
- CCTV installation, concealed and visible
- Domestic and commercial alarm monitoring systems
- Electric fence installations and monitoring
- Smart, control room linked, gate monitoring
- Security gate installation and automation
- Securing home perimeter and general automation

ARMED RESPONSE

Our **Specialist Armed Response** fleet is manned by highly trained, efficient response personnel patrolling designated neighborhoods and commercial areas and is controlled by our permanently manned state-of-the-art control room.

The **success** of our **Armed Response Service** is the assurance that all personnel are carefully selected, subjected to continuous training and each individual's up-to-date registration with PSIRA. The response time and efficacy of our team is regularly tested through internally conducted random ghost reviews.

Once an activation is received by our control room, a call will be placed to the designated client contact number upon which the appropriate vehicles and personnel are dispatched along with any further services including but not limited to;

- Armed personnel
- Emergency medical response
- Fire safety

EMERGENCY MEDICAL RESPONSE

EC Security, in partnership with EMER-G-MED, provide our clients with the best priority Emergency Medical Response Service in the industry. This partnership gives our clients access to the benefits of a sizable state-of-the-art medical response fleet, world-class expertise, and extensive specialised equipment.

REMOTE OFF-SITE MONITORING

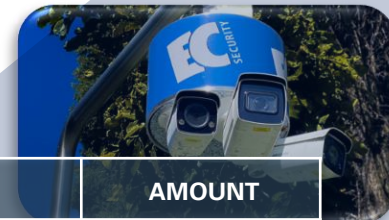

CCTV offers clients alarm/trigger-based off-site monitoring. The CCTV system transmits live video to our offsite Control Room when an event occurs our team responds immediately. An event can be anything from motion on the cameras, beams being triggered on the perimeter, thermal or infrared passives that are triggered or analytics on the cameras itself.

Once this event occurs, the live video is automatically flagged to the CCTV offsite monitoring control room where operators verify it and implementing the client's predetermined protocol. Protocols range from contacting Armed Response, SAPS, the site manager to switching the client's premises lights on. The possibilities are endless. Insert our team right into your business with offsite CCTV Monitoring.

RISK ASSESSMENT

EC Security Services has a dedicated team of experienced professionals who specialize in Security Assessment, Risk Management, and Protection Services. We understand the importance of comprehensive Risk Assessment and are committed to delivering tailored security recommendations to our clients.

- **Risk Assessment:** Our team conducts thorough risk assessments to identify potential security threats and vulnerabilities.
- **Security Recommendations:** We provide expert recommendations to mitigate identified risks and enhance security measures.
- **Protection Services:** We offer a range of security services, including physical security and access control.
- **Training and Education:** We empower our clients with the knowledge and skills required to maintain a secure environment.
- **Continuous Improvement:** We believe in continuously evolving our services to adapt to changing security challenges.

In the event that we are successful in obtaining the site award, we believe it would be beneficial for our team to have the opportunity to conduct our own comprehensive Risk Assessment and offer our recommendations. We firmly believe that this opportunity will not only help us bolster our security measures but also demonstrate our commitment to continuous improvement and proactive risk management.

Thank you for considering **EC Security Services** as your trusted security partner. We look forward to the opportunity to collaborate with you and contribute to the success and safety of your site.

Thank you for affording us the opportunity to do a costing on the required Guarding needs. We trust that we would exceed your expectations.
